

Make our community more beautiful!

1. Take out both of your coffee cups.
2. Poke a few small holes in the bottom of ONE cup.
3. Put it inside of the second cup.
4. Go outside and find a handful of small rocks or pebbles; place them in the bottom of the cup.
5. Gently and neatly place your baggie full of soil on top of the rocks.
6. Very carefully take the seeds and press them down inside the soil about 1/4 inch.
7. Regularly water it with a small amount of water. Be careful not to drown your seeds!
8. When we get to see you at HVCC again, we will ask you to bring you growing flowers and we will plant them around town so that everyone knows that the world is still beautiful!
